Subject: RE: History of Florida's request for assumption discussion in BA

All,

FDEP has sent their history section from the draft BA we've previously reviewed (link attached). As background, during our in-person meeting it was recommended to remove this section completely as we had many comments on the timeline as laid out. However USFWS indicated to FDEP that they would like to have this history included to aid in their creation of the BO. So, are there edits we can suggest that will allow the section to remain in the document? If possible, I'd like to be able to compile our edits and comments prior to our call with FDEP next week.

I also expect a document from FDEP later this week that will discuss "reasonable potential" but probably not early enough to review for Tuesday's call. I'm going to try to compile all our comments on the flowchart, I have Alexis and Kathy's comments but if anyone else has something to add please send to me by Monday.

Action Items/Discussions for next Tuesday call:

- Review/comment on BA history section
- Any additional comments on flowchart

Subject: History of Florida's request for assumption discussion in BA

Attached are excerpts from the first draft of the BA with discussions on the background/history of the State of Florida pursuing 404 Assumption.

USFWS made a comment on the bulleted list as something that is helpful to them for the BiOp. Since it is something that EPA discussed in our meeting as something that could be removed from the BA, we would like to make sure there are no problems with including it.
